

The A-Class Limousine. Just like you.

Mercedes-Benz

The Limousine. Now also as an A-Class Limousine.

It's the way we used to draw cars when we were children: divided up into engine compartment, interior and luggage compartment according to the so-called 3-box design. The A-Class Limousine draws inspiration from our childhood dreams and presents a completely new design, one that heralds a new generation of automobiles. The profile is so dynamic yet timelessly elegant. It's time to take your dreams for a drive in the new A-Class Limousine with MBUX (Mercedes-Benz User Experience).

More spacious feeling.

*Please read the disclaimer.

Knows the way home.
And your habits.

MBUX, the new Mercedes-Benz User Experience, introduces artificial intelligence into the A-Class Limousine. It learns more every day and, most importantly of all, gets to know its driver more and more. It can remember your favourite songs and the route to work. It then automatically adjusts the right radio station or shows you a faster way if your usual route is congested. All by itself and as a matter of course, if that is what you want.

Exemplary safety.

Be it at rush hour, during a long drive at night or on an unfamiliar route, your A-Class Limousine noticeably takes the strain off you, particularly in stressful situations. It's all down to a concept that makes every journey in a Mercedes-Benz a safer and exceptional experience: Mercedes-Benz Intelligent Drive. Because the time you spend behind the wheel is your time. Time for relaxation. Time to replenish your energy. So that, above all else, you reach your destination even more safely and are also more relaxed when you get there.

Instant performance.

Every Mercedes-AMG is a masterpiece in its own right, with an unmistakable character. What unites our performance vehicles and sports cars is their irrepressible sporting spirit. Their passion for top performance. It is generated at the point where engineering skill meets a very special attitude: the spirit of AMG. We believe that you have to keep on challenging limits in order to achieve new goals. We accept nothing as a given. Because limits are imposed by people, and it's also people who can overcome them. It's this attitude that enables us to achieve outstanding performance for the race track - and for the road.

Welcome to the world of AMG.
